

# **Transferring Dual Credit**

**Two options to see if your dual credit classes will transfer.**

## **1. The College/University Transfer Equivalency Guide**

DC transfer guide that can be used for both in state and out of state schools:

Conduct a google search for the College/University transfer equivalency guide. Using a google search type in the university you plan to attend with transfer equivalency guide.

***Example “Texas A&M University transfer equivalency guide”***

Using the College/University transfer equivalency guide key in Lone Star College course numbers to see which courses transfer to that College/University.

Note: The College/University course numbers may differ from the Lone Star College course numbers. Locate the degree plan you intend to study from the College/University you will attend to verify the courses needed in the degree plan. The easiest way to look up a College/University degree plan is a google search. In the google search bar place the degree you are planning to complete as well as the institution that you will attend.

***Example “Mechanical Engineering Degree Plan at Texas A&M University”.***

Please be aware that every College/University may not have an online transfer equivalency guide. If the school you plan to attend does not have a transfer equivalency guide, another option is to call the College/University admission office and request to speak to a transcript evaluator. The transcript evaluator will be able to answer question regarding transfer credit to their campus from Lone Star College.

**OR**

## **2. Texas Common Core Numbering System**

Use this link to do more research for Texas College/University [www.tccns.org](http://www.tccns.org)

Choose the two Colleges you wish to compare.

Note: The college/universities course numbers may differ from the Lone Star College course numbers. To see which classes transfer to the College/University you plan to attend and count towards your degree plan. First locate the degree plan online that you will study next search Texas Common Core web-site ([www.tccns.org](http://www.tccns.org)).

Need help locating a degree plan the easiest way to look up a college/university degree plan is a google search. In the google search place the degree you are planning to complete as well as the institution that you will attend.

***Example “Mechanical Engineering Degree Plan at the Texas A&M University”.***
